## EDUCATION

MIT Art, Design and Technology, Loni Kalbhor  
Bachelor of Technology in Information Technology  
GPA: 8.68/10

Graduation: **2027**

Relevant Coursework: DSA, DBMS, OS, Computer Networks, Software Engineering, Web Development, Software Testing, Cybersecurity.

---

## TECHNICAL SKILLS

**Programming Languages:** Python, Java, JavaScript, TypeScript

**Web & Full-Stack Development:** HTML, CSS, Javascript, React, Node.js

**Databases:** MySQL, MongoDB

**Testing & Automation:** Selenium, JUnit, Jest, Postman

**Cybersecurity & Security Testing:** Burp Suite, MobSF, Basic Cryptography

**Systems / DevOps / Tools:** Linux, Shell Scripting, Docker, Git/GitHub, Jenkins

**Cloud / Emerging Technologies:** MCP Server Dev, Prompt Engineering, API Integration

---

## PROJECTS

**Multi-Provider MCP Server** | Python, MCP, REST APIs, System Design

- Designed and developed a scalable Model Context Protocol (MCP) server supporting 30+ tools across multiple cloud providers.
- Implemented an adapter-based architecture enabling seamless integration of new providers without modifying client configurations.

**FeedbackPRO – Web Security Testing Lab** | TypeScript, React, Node.js, Web Security

- Built an intentionally vulnerable web application to demonstrate and practice real-world web security testing techniques.
- Implemented vulnerabilities including Stored XSS, Reflected XSS, SQL Injection, and Brute Force Authentication in a controlled environment.

**ClickAware - URL Phishing Detection Platform** | Python, Machine Learning, Flask

- Developed a phishing detection platform to identify and analyze malicious URLs using machine learning techniques.
- Designed an intuitive interface to improve threat awareness and assist users in recognizing phishing attacks.

**VOSK Lomiri – Speech-to-Text System** | Python, QML, Linux, Shell Scripting

- Contributed to an offline multilingual speech-to-text solution for Ubuntu Touch, improving accessibility without internet connectivity.
- Integrated Python and Linux-based components to support real-time voice input and terminal-based workflows.

---

## LEADERSHIP & ACTIVITIES

**General Secretary** – FOSSphere Club: Organize open-source focused events and lead initiatives promoting FOSS adoption.

**Content Team Lead** – IMPACT Student Council: Managed content planning and organization for student-led initiatives.

**AMD SlingShot Promptathon** – Ranked: 49 / 540
